

REMARKS

Claims 1, 3 and 4 are pending in the application.

The drawings were objected to as failing to comply with 37 CFR 1.84(p)(5) because “replacement drawing for Figure 10 filed 10/11/2005 lacks an element number for the gear pump”. In addition, the disclosure was objected to because “the gear pump of claim 1 lacks an element number in the Specification”.

Each of these issues has been addressed herein. An amended Replacement Sheet for Figure 10 is attached hereto. Review and approval of this sheet are respectfully requested.

The specification has also been amended herein to recite an element number for the gear pump recited in Claim 1.

It is respectfully submitted that in regard to the above amendment and remarks that the pending application is in condition for allowance and prompt review and issuance is accordingly requested. Should the Examiner be of the view that an interview would expedite consideration of this Amendment or of the application at large, request is made that the Examiner telephone the Applicant’s undersigned attorney at (908) 518-7700 in order that any outstanding issues may be resolved.

Respectfully submitted,

Karin L. Williams Registration No 36,721

Request for Approval to Make Drawing Changes

Please amend Figure 10, as shown on the attached replacement drawing sheet, to include element number 10a for the gear pump illustrated.
